

CO-CURRICULAR AND EXTRACURRICULAR ACTIVITIES
School Authority at Student Activities

The School Committee believes that student activities are a vital part of the total educational program and should be used as a means for developing wholesome attitudes and good human relations and knowledge and skills. Therefore, the schools will provide a broad and balanced program of activities geared to the various ages, interests, and needs of students.

The following will serve as guides in the organization of student activities:

1. The schools will observe a complementary relationship to the home and community, planning activities with due regard for the widespread and rich facilities already available to students.
2. The assistance of parents in planning activity programs will be encouraged.
3. The goal for each student will be a balanced program of appropriate academic studies and activities to be determined by the school, the parents, and the student. This should be a shared responsibility.
4. Guidance will be offered to encourage participation of all students in appropriate activities and to prevent over-emphasis on extracurricular activities at the cost of academic performance.
5. All activities will be supervised; all clubs and groups will have a faculty advisor.
6. School supervision shall apply to student spectators as well as participants of any activity sponsored under the direct authority of the Westfield School System.
7. All provisions of school policy and disciplinary regulations shall apply to the conduct of students who are present at either as spectators or participants wherever that activity may be held.
